

ŠKODA
SIMPLY CLEVER

THE ŠKODA FABIA RANGE

Introducing the new ŠKODA Fabia. The ŠKODA Fabia is one of the most successful ŠKODA models ever with over 3.4 million models sold since the car made its debut back in 1999.

The new Fabia is a completely new car inside and out. Now in its third generation the new Fabia is better in every way.

EXTERIOR DESIGN

The new Fabia turns heads whichever way it turns. Sharp lines and strong curves define its rear, creating an attractive play of light and shadow. ŠKODA's unmistakable design language is spelt out in the crystal-shaped space for the license plate. The rear of the car also features the familiar illuminated C-shaped rear lights, now with a glossy black framing.

The combi version is proof that form and function can live under the same roof. Its sharp clean lines cleverly enfold the unrivalled space inside. View it from any angle and its perfectly balanced proportions won't fail to impress. It's a great example of dynamic design working in harmony with practicality. Within it boasts luggage capacity that can shame cars from higher vehicle segments.

Don't beg for attention, steal it. Start with getting dressed to impress, then leave them gasping for air. Turn heads wherever you go. Attract secret admirers at every corner. The new Fabia is as beautiful as it is dynamic. The dance between light and shadow continues, with distinctive lines running sideways along with the cut-out lines in the lower door section.

The optional panoramic glass roof stretches all the way from the windscreen to the roof spoiler.

The side indicators are now stylishly located in the side rear-view mirrors.

Sporty headlamp covers with crystal edges in the lower section are further emphasised by LED Lights that are standard from the Ambition model.

COLOUR CONCEPT

None of us are the same. Whether we like to admit it or not we all like to be different in our own way. In our clothing or with our hair style we all like to be unique. Every Fabia can be unique thanks to the multitude of colour combinations that are offered in the new Fabia.

Silver ColourConcept

White ColourConcept

Red ColourConcept

Choose the roof, side mirrors and wheels in white, silver, red or black and match them with a selection of colours for the main body.

Black ColourConcept

Your car should be your signature. Designed exclusively for the hatchback version, ColourConcept offers many options to personalise your new Fabia.

The Colour Concept is offered as an optional extra please discuss with your local dealer.

INTERIOR DESIGN

What's better than looking good on the outside? Feeling good on the inside! True beauty comes from within and the new Fabia doesn't fail to impress.

The car's interior is brimming with quality materials and precise workmanship wherever you look. An emphasis on horizontal lines and fine-tuned ergonomics makes the interior of this compact car comfortable, self-assured and surprisingly spacious.

Enjoy freedom and space when you order a panoramic glass roof on your new Fabia.

Personalise your new Fabia by opting for stylish steel foot pedal covers . Also available as an accessory.

The new Fabia provides extraordinary space for your friends or family in the rear seats.

INTERIOR OPTIONS

Active Specification

Active Black interior

The Active version interior includes black decorative elements, such as door handles, air-ventilation frames and instrument dial frames. Standard equipment includes the Radio Blues infotainment system and a height adjustable driver seat.

Active Black interior

Ambition Specification

Ambition Blue interior, Piano White décor

The Ambition version interior includes decorative features such as chrome door handles and steering wheel details. You can also choose from a number of seat upholstery and décor colour combinations. Standard equipment includes a 6.5" colour touch screen Bolero radio system and a 3-spoke multifunction leather steering wheel with Bluetooth phone connectivity.

Ambition Grey interior, Light Brushed décor

Ambition Grey interior, Basket Matt décor

Ambition Red interior, Light Brushed décor

Ambition Blue interior, Piano White décor

Style

Style Beige interior, Piano Black décor (with optional sport steering wheel)

The Style version provides a touch of class with the option of Piano Black or Piano White interior dash elements. You can also choose from a number of seat upholstery and décor colour combinations. Standard equipment on the Style includes Easy Start (push button, no need for a key), air-conditioning, rear electric windows and a front centre arm rest for added comfort.

Style Blue interior, Piano White décor

Style Black interior, Dark Brushed décor

Style Black interior, Basket Matt décor

Style Beige interior, Piano Black décor

Sports seats

Sports seats

The exclusive sports seats in a special design underline the dynamic character of your car. They are available for the Ambition and Style versions.

Sports seats

LUGGAGE COMPARTMENT

Store it. Hang it. Lift it. Lock it. Stretch the spacious luggage compartment even further with ingenious details that will make your life that little bit easier.

Capacity

The new Fabia's spacious luggage compartment runs some impressive numbers: the hatchback offers 330 litres with the seats up and 1,150 litres with the rear seats folded, while the combi offers 530/1,395 litres.

Cover

For easier loading and transporting of large items, you can put the luggage compartment cover in a retracted position.

Net programme

Talk to your dealer about a set of nets from our genuine accessory range that will keep order in your luggage compartment and will prevent luggage from sliding around. Also available as an accessory.

Lowered cover

The luggage compartment cover, when fixed in the lower position, allows for the transport of fragile objects.

Folding hooks

Your shopping will be safe from spilling out of the bags when hung on the hooks.

Flexible storage compartment

This handy accessory can be used to fix smaller objects in place. Also available as an accessory.

OUR SPORTY FABIA

The black exterior elements give the Fabia Monte Carlo a unique style and a ferocious expression. With its distinctive look and impressive handling you will generate excitement, whether cruising in the city or on long drives.

The panoramic glass roof, which comes as standard for both the hatchback and combi version, stretches all the way from the windscreen to the roof spoiler. The Monte Carlo logo can be found on the B-columns. To further enhance the Monte Carlo, we have added SunSet (tinted windows) in the rear and rear parking sensors.

MONTE CARLO

MONTE CARLO INTERIOR

The Monte Carlo interior is a blend of spaciousness, style and practicality. The vehicle will impress you with its personal atmosphere, whether you are sitting in the front or rear.

The interior features sports seat upholstery in a combination of red, black and grey. The sports 3-spoke steering wheel in black perforated leather is decorated with red stitching. The knob of the gear stick also comes in black leather. Red stitching features throughout as does the red centre console elements.

The Monte Carlo comes with the standard 6.5" Bolero infotainment system. The optional SmartLink system (ŠKODA Connectivity bundle containing MirrorLink®, Apple CarPlay and Android Auto) enables the driver to safely use the phone while driving.* Your smartphone can be safely stored in the multimedia bracket situated in the dual drinks holder on the central console.

* Visit our website for usage terms and compatibility for SmartLink.

The stylish interior is complemented by the noble steel foot pedal covers.

TECHNOLOGY

My toys also serve as my tools.

INFOTAINMENT

Teach your smartphone to be smarter. Introduce it to your other love, your car. Make them speak the same language. Go anywhere. Be anyone. Do anything. But keep all your lives in sync.

SmartLink

Your car and smartphone are now in perfect sync. With the SmartLink system (Škoda Connectivity bundle supporting MirrorLink®, Apple CarPlay* and Android Auto*), the radio enables the driver to safely use the phone while driving. All installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto.** The SmartLink system is available with Bolero radio and Amundsen navigation system.

Amundsen/Bolero

The Amundsen navigation system and the Bolero radio, controlled via a 6.5" touch-screen display, come with a USB/Aux-in input jack, slot for SD cards located in the glove compartment, Bluetooth and ŠKODA Surround. The devices can even be used to control the car menu. The Amundsen is supplied with an SD card with maps. SmartLink and DAB (Digital Audio Broadcast) come as optional.

* Detailed information is available at [Apple.com/ios/CarPlay](https://apple.com/ios/CarPlay) and [Android.com/Auto](https://android.com/Auto).
** Visit our website for usage terms and compatibility information for SmartLink or SmartGate.
*** Applications are also compatible with SmartLink.

ŠKODA Surround

Turn your car into an amphitheatre. Developed in collaboration with a leading audio brand, the ŠKODA Surround sound system employs six speakers. Special software can additionally employ two virtual speakers in the front and rear. The system can also create a virtual yet impressive subwoofer.

SmartGate

Enjoy your journey long after it's over. With the SmartGate system, you can connect your smartphone to your car via WiFi to read interesting data about your car, like driving economy, driving dynamics or service information. Information from the Drive application can even be saved on the ŠKODA portal where you can access it from anywhere at anytime.**

COMFORT

Take a deep breath. Seize comfort like you seize attention. Relax on the longest journeys without breaking a sweat. Take complete command of your life, but always look comfortable doing it.

Height-adjustable front seats

You can easily set the seats according to your height so you feel as comfortable as at home and you have a better and safer view of the road. The Style model even provides the front seat passenger with a height adjustable seat.

Electrically-adjustable and heated external mirrors

From the Fabia Ambition model the side rear-view mirrors can be quickly adjusted and defrosted from the comfort of your seat without having to open the windows.

Electrically-adjustable windows

The controls for the front windows are conveniently located in the door panelling from Ambition models and higher. The Style model has electrically-adjustable rear windows with child safety lock.

Front armrest

The front armrest on the Style mode conceals a storage compartment for small items as well as increasing the comfort of both the driver and front passenger. Also available as an accessory.

KESSY / Easy Start

The Fabia Style is equipped with KESSY (Keyless Entry, Start and exit System). Easy Start is start/stop button for keyless switching on and off the engine.

Multifunctional steering wheel

The attractive multifunctional leather steering wheel is not only pleasurable to grip, but enables you to control radio, Maxi DOT and your connected phone.

Air conditioning

For long journeys air conditioning is an excellent companion especially in the summer months. All Fabia Style models come with air conditioning as standard.

I take risks in life, not on the road.

SAFETY

SYSTEMS TO KEEP YOU SAFE

Get an extra pair of hands. Let technology help you do what you love doing. Remain in the limelight thanks to guardians who remain hidden.

ESC

The ESC (Electronic Stability Control) is further refined in the new Fabia. Now with XDS+ (electronically controlled differential) you can corner with more confidence. And now in the event of a serious collision; MKB (multi-collision braking system), limits further multiple impacts after the first collision.

SpeedLimiter

The SpeedLimiter available from the Ambition model will help you maintain safe speeds and avoid penalty points.

Driver Activity Assistant

The Driver Activity Assistant evaluates data from the power steering sensors to detect any driver fatigue behaviour. In such cases, the Maxi DOT display warns the driver to take a break. Available as an optional extra this could suit drivers who spend long periods behind the wheel.

Front Assistant

Using a radar in the front bumper, the Front Assistant initiates an audio/visual signal, using Maxi DOT, to warn about an impending collision. If the driver fails to respond, the system initiates braking to minimise any possible impact. This optional feature would be useful for drivers that complete a lot of urban driving.

SAFETY

Take your chances, but none while driving. Indulge in style without skimping on safety. Attract all the attention without attracting any risks. Take care of things while still being carefree.

Our most valuable loads are often transported in the rear. Our children, although unaware, will appreciate that the Fabia is equipped with six airbags as standard to provide maximum safety to their parents and siblings.

The new Fabia is equipped with front seat driver and passenger airbags. Front seat side airbags and two curtain airbags as standard equipment.

ENGINES & TRANSMISSIONS

The new Fabia offers more choice than ever. All the engines are brand new to the Fabia and offer superior performance and economy. Whether you choose petrol or diesel you also have the choice of manual or DSG Automatic Transmissions.

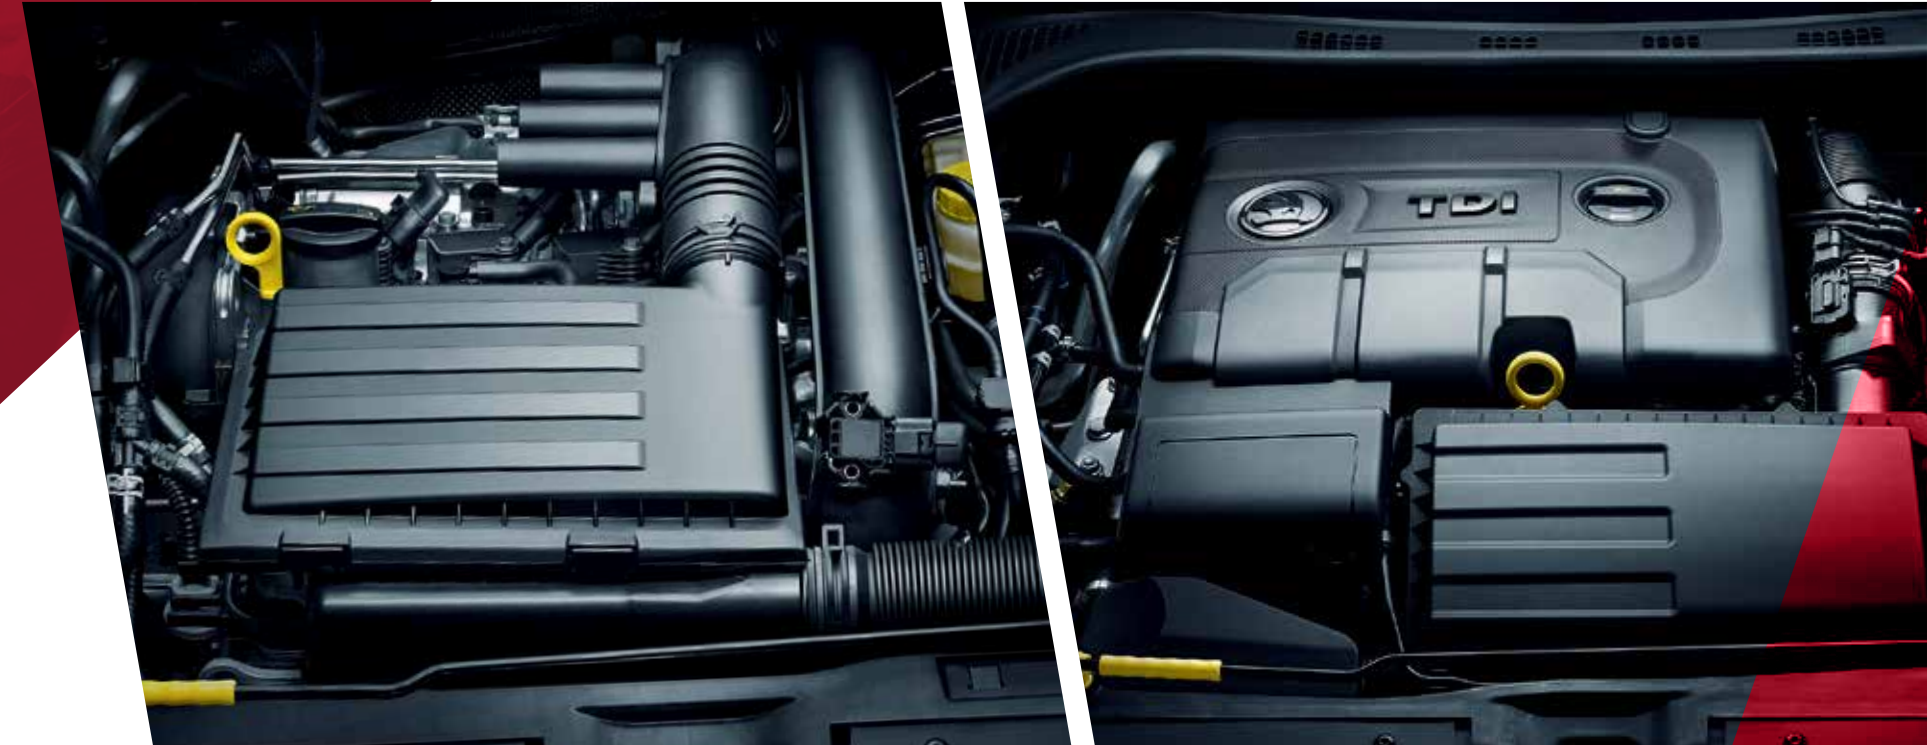

Transmission

Manual transmission addicts can choose between the 5 or 6-speed transmission, depending on the selected engine. Both options offer precise and easy gear shifts thanks to the short gears. If you'd rather enjoy economy and comfort, there's the automatic DSG (Direct Shift Gearbox) transmission.

Start-Stop system

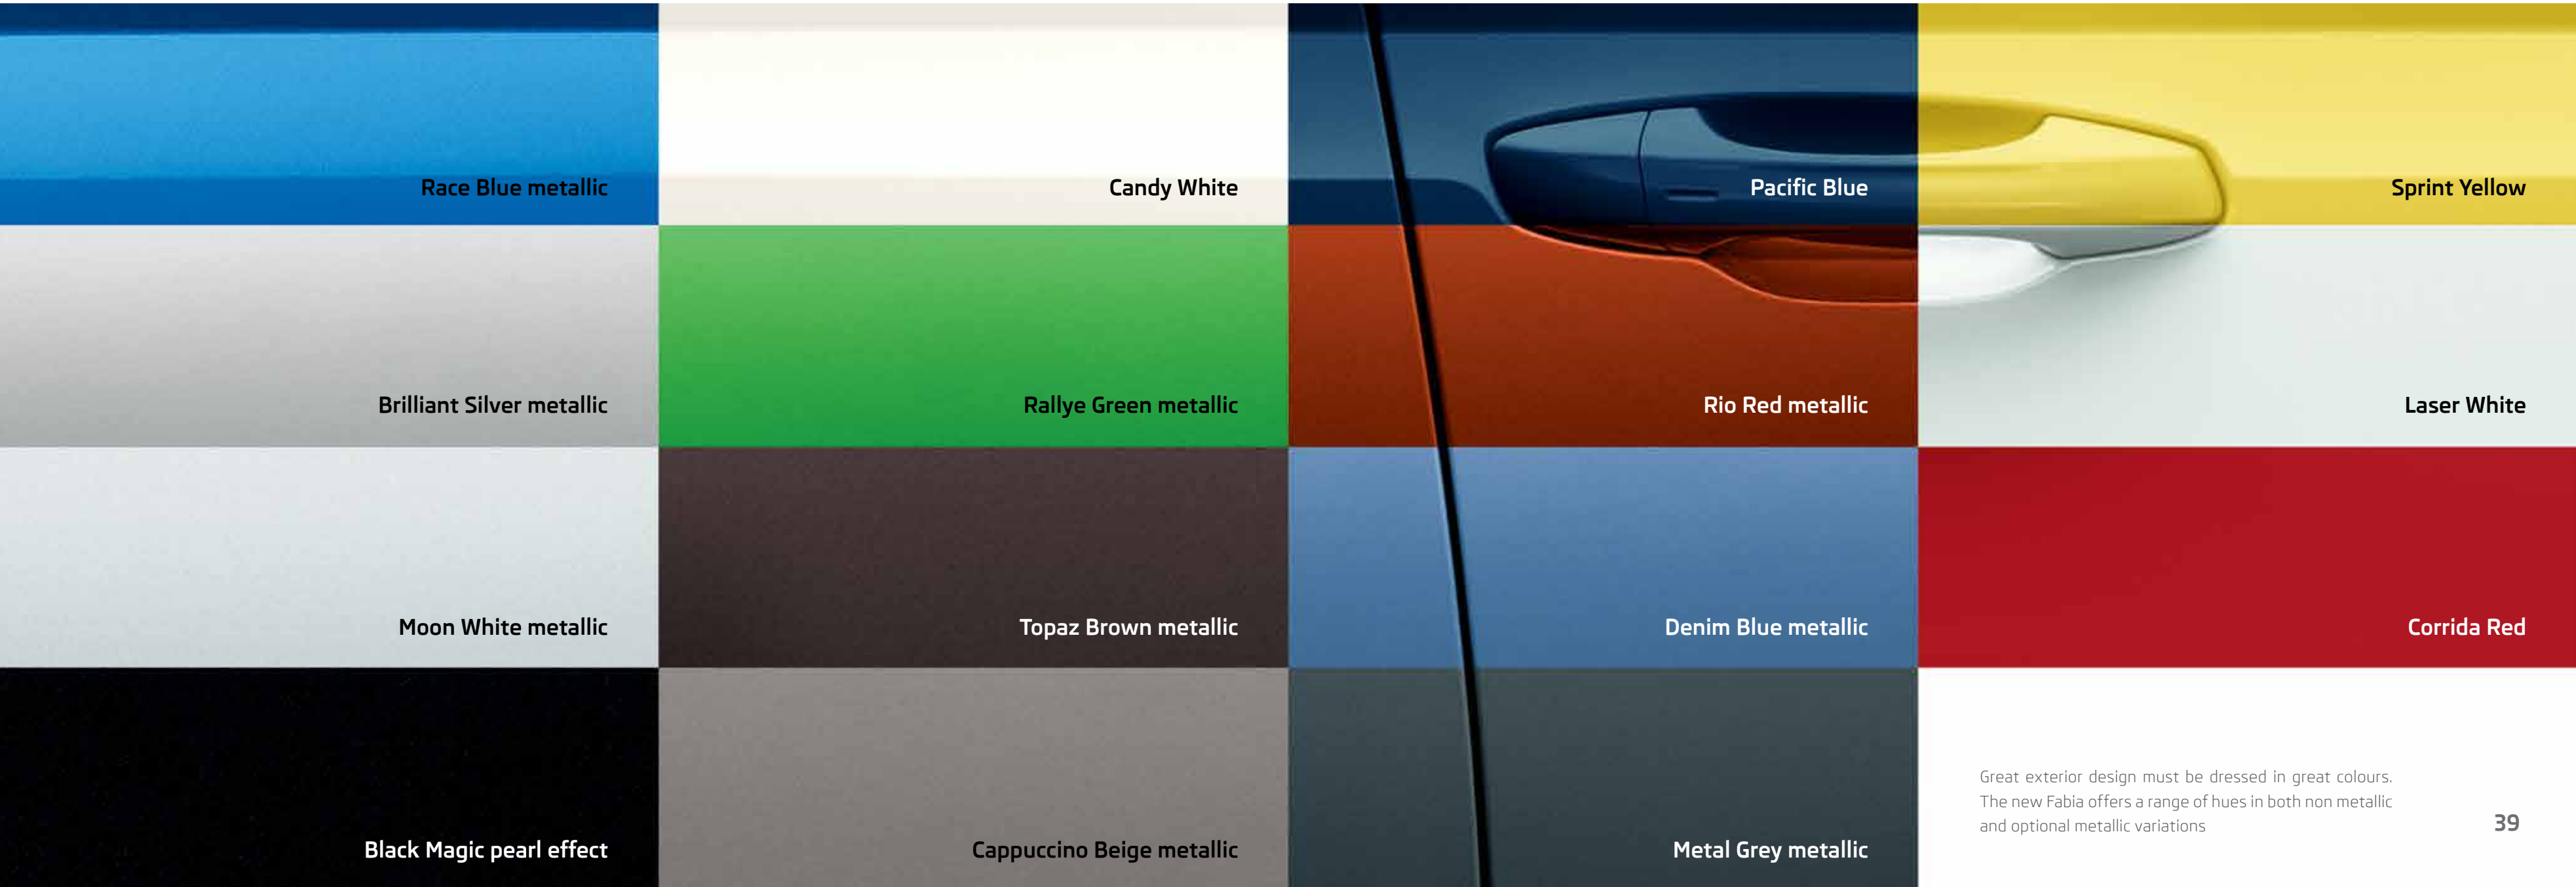

The Start-Stop system is also brand new to the Fabia and saves fuel by automatically switching off the engine when stopped.

Engines

In recent times ŠKODA has focused on producing smaller, lower volume engines that produce excellent power outputs with exceptional efficiency combined with lower taxes. The result of which is our excellent 1.0 MPI, 60bhp and 75bhp units that deliver surprising acceleration and driving dynamics. At the upper end of the power scale we have turbo charged petrol and diesel units producing up to 110bhp.
