

ŠKODA
SIMPLY CLEVER

THE ŠKODA OCTAVIA RANGE

The feeling of being amazed is rare.

The ŠKODA Octavia is designed to create this amazement everyday.

Elegant yet dynamic design, generous space, impressive features and assistant systems all add to the appeal. Being a proud member of the ŠKODA family, the Octavia also offers numerous Simply Clever features like the handy ice scraper mounted on the fuel cap.

This car is yet another example of 120 years of forward thinking. It means being passionate about making quality cars that are as much a joy to drive now as they were back when we started.

Because looking back on our eventful history inspires us to the future.

That's Simply Clever. That's ŠKODA.

ŠKODA Octavia, 1964.

The Octavia model **design** is defined by clear lines, sharp-cut edges and clearly modelled surfaces. The ŠKODA design language is simple, precise and crystalline, lending the car harmonic proportions, high functionality and timelessness. The bodywork features a dominating **front grille with a chrome frame**, the shape of which highlights the **ŠKODA logo**. The arrangement of the individual front bodywork elements and their shapes underlines the car's charisma and its sporting spirit. Optional **LEDs in combination with Bi-Xenon headlamps for use as daytime running lights** offer a distinctive and continuous band of light. Another great feature are the **black fog lamps with corner function**.

Viewed from the rear, the car has a strikingly clear design. While a **robust bumper** evokes a feeling of safety, the **large 5th door** refers to practicality and excellent access to the luggage compartment. You will find a lot of elements on the rear bodywork that are typical of the ŠKODA cars: **ŠKODA logo, lettering and crystalline recessions** for the registration plate. (Photo shows combi version.)

The **rear lights**, the illumination of which creates a double C letter, are unmistakably ŠKODA. Style versions come with highly luminescent and energy efficient **LEDs**. (Photo shows liftback version.)

The harmony of the Octavia model design is most distinctive when viewed from the side, where its dynamics, elegance and sense of pragmatism find common ground. Impressive elements include **chrome strips** around the side windows of the Combi version (see photo) or in the lower part of the liftback windows, as well as the optional **SunSet** tinted windows that are offered. The **roof railings** for the Combi version are available in exclusive silver or elegant black design.

When you need to display a parking ticket in a visible place under the windscreen, the solution is simple. The car is equipped with a **parking ticket holder**.

You will find a **1.5-l bottle holder** in a spacious compartment in the front door. This is also where you can place a **removable waste basket**, which will help you keep the interior clean. Available from Accessories from €14.
Black - 5JA 061 107 9B9
Beige - 5JA 061 107 9B9

Simply Clever details and solutions as well as storage compartments significantly increase the practicality of the car. By simply multiplying your storage options helps keep your car tidy and makes travelling more pleasant for all passengers.

The **multimedia bracket** located in the centre console is not only a practical accessory but also a safe place for transporting your iPod, mobile phone etc.

The green **ice scraper**, mounted on the fuel cap, is a handy feature for cold and frosty mornings.

Unrivalled space for everything and everyone.

The Octavia offers **lots of legroom and headroom** for the driver and front passenger. The seating comfort in the front is further enhanced by an adjustable armrest. from Ambition models upwards.

You can enjoy the feeling of freedom and even greater space with the **panoramic sunroof**, made of tinted glass ensuring lower light transmission and thermal permeability. You can either tip it upwards or slide it backwards, creating an open space above the front seats of the liftback version. A **two-part electrically-adjustable panoramic sunroof** is also available as an option for Combi versions.

The Octavia provides **extraordinary space even with full occupancy**. Up to three passengers can travel comfortably in the rear. Standard items include the Isofix and Top Tether belts for fixing child seats on the outer rear seats.

The **luggage compartment** parameters are very impressive. The Combi version offers **610 litres** (see photo) and the liftback **590 litres** and **1,740/1,580 litres** after folding down the rear seats.

The **storage pockets** on the rear of the front seats can conceal various articles, from books to toys, depending on who sits in the rear. Other things which you may want to take with you, including a 0.5-litre drinking bottle for children, can be placed in the **storage compartments** in the rear doors.

The driver and front passenger can use a practical **double drinks holder** in the centre console, which also contains other storage spaces.

A **sunglasses compartment** is also available located over head beside the interior rear-view mirror.

Available as an option the manually controlled **roll blind** for the rear window of the liftback version can efficiently protect passengers in the rear seats against the sun.

Your comfort when boarding or leaving the car can be enhanced with the front and rear **lighting of the foot area**, the mode and intensity of which can be individually configured.

The passengers' comfort in the rear seats is enhanced by a **tilting armrest with two drinks holders**. Standard from Style models, (standard from Ambition on Combi).

The **glove compartment** in the lower part of the dashboard can be air-conditioned (standard from Style model). You can store drinks and small food items in this cold environment to keep them fresh for long journeys..

The **230V socket** which can be installed on the rear side of the Jumbo Box is suitable for laptop or DVD player cables, a mobile phone charger etc. This can also contain the **rear seat heating** buttons.

The **Climatronic**, dual-zone air conditioning with electronic regulation, is also fitted with a humidity sensor, which reduces windscreen misting. The USB/ Aux-in connection can be found on the centre panel. A **Phonebox**, located in the area in front of the gear stick, brings an amplified signal from the roof aerial to your mobile phone.

With the **SmartLink** system*** (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay* and Android Auto*), the radio enables the driver to safely use the phone while driving. All installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. Standard on RS, L&K & Scout models.

Your car can be also equipped with the **SmartGate** system. It allows you to connect your smartphone to the car via WiFi to access interesting data about your drive, like driving economy, driving dynamics or service information.** Available from Accessories, please discuss with your local dealer.

The **Swing radio** with a 5" colour touch-screen display comes with a USB/Aux-in connection, SD card slot and four 20W speakers. Using Bluetooth, you may also access your contact list. The device can even be used to control the car menu. Standard on Active.

The top **Bolero radio** with a 6.5" colour touch-screen display offers, in addition to the same features as the Swing radio, Bluetooth and four speakers in the rear. SmartLink is also compatible with the Bolero system. Standard from Ambition.

The optional **Amundsen navigation system**, controlled via a 6.5" touch-screen display, has two SD card slots and comes with an SD card pre-installed with maps. It's further equipped with all standard functions of a top radio.

The optional **Columbus navigation system**, controlled via an 8" touch-screen display, provides your car with the most attractive multimedia information system. It's equipped with all standard functions of a top system and is also compatible with SmarLink.

* Detailed information is available at Apple.com/ios/CarPlay and Android.com/Auto.
** Visit our website for usage terms and compatibility information for SmartLink or SmartGate.
*** Compatibility can be dependent on both the user's phone and operating system.

The Octavia model offers a host of assistant systems. Some of them engage the multifunctional camera located on the windscreen below the interior rear-view mirror: **Lane Assistant** for keeping the car in the right lane, **Intelligent Light Assistant** and traffic sign recognition. The systems are displayed on **Maxi DOT**, which comes with a colour display at request.

From Ambition models **Parking Sensors** built into the rear bumper emit an audible signal based on the assumed directional movement of the car. If you wish to make parking as easy as possible the **Automatic Parking Assistant** will be the best assistant for you. It will select an appropriate parking place, park in a row of parallel or perpendicular parked vehicles, and can even drive out of a row of parallel parked vehicles. In the case of parallel parking, it only needs a space 60 cm longer than the car itself.

Our most advanced assistant systems use a radar device in the front bumper. When driving on motorways the **Adaptive Cruise Control** maintains a safe distance from vehicles in front of you. The **Front Assistant** (not shown in photo) monitors distance from the vehicle ahead and automatically slows down or warns the driver of a potential danger of collision or, if a collision is inevitable, minimises its consequences by braking.

From Style models the **Optical Parking Assistant** uses a camera located on the boot door handle, monitoring the space behind the car and indicating the driving lanes, based on the vehicle width. This assistant system is always supplied with rear parking sensors (Intelligent Parking Assistant) and a radio or a navigation system, which shows your progress during parking on the display.

The **leather multifunctional steering** wheel with chrome elements enhances your joy of driving the car. The top offer includes a 3-spoke sports steering wheel in perforated leather with controls for the radio, phone and the automatic DSG (Direct Shift Gearbox optional).

The **automatic DSG** (Direct Shift Gearbox) creates excellent acceleration while keeping the engine in an optimum state. With economic driving, fuel consumption is kept low. Based on the specific engine, you can choose between a 7-speed or a 6-speed version.

All **petrol engines** feature TSI technology and you will enjoy their dynamic character. Other advantages include lower weight and fuel consumption as well as CO₂ emission levels.

The whole range of **diesel engines**, supplied with the common rail fuel injection system, ensures high power and smooth running at exceptionally low fuel consumption.

A wide range of **safety** features provides certainty that you can rely on your car in extreme situations. There are as many as **nine airbags**, which offer protection for you and the passengers.

The standard equipment of all cars includes **ESC** (Electronic Stability Control) that when combined with the **Multi-Collision Brake** system can avoid further uncontrolled movement of the car in a situation when one of the front airbags has been activated.

The safety level is significantly improved by **safety assistant systems** with progressive technologies, which appear in ŠKODA cars for the first time. Besides the systems mentioned on previous pages, we also offer the **Crew Protect Assistant**, which tightens the driver's and front passenger's seat belts in emergency situations, partially closes electrically-adjustable front windows, and eventually closes the sunroof.

Besides the crew protection, we also offer a number of elements for **car security** including the component protection system, which avoids the use of, for instance, control units, radios or navigation systems in other vehicles.

The **front and optional rear side airbags** are designated for pelvis and chest protection in case of a side impact.

Enhance your safety during long-distance driving by availing of the optional **Driver Activity Assistant**, which evaluates details obtained from the steering servo unit at speeds exceeding 65km per hour. When the assistant notes behaviour that might be a sign of driver's tiredness, such as more intensive driving direction corrections with the steering wheel, it recommends taking a break. Available as an option.

The **automatically retractable external rear-view mirrors** fold down when the car is locked, thus being protected against damage. Standard on Sytle and L&K models.

The **rear Aero wiper** applies even pressure along its entire length. The car is also equipped with front Aero wipers.

The **knee airbag** located under the steering console protects the driver's lower limbs.

The **safety lights** on the front door panelling draw the attention of passing drivers to the open door of a standing vehicle.

The **Active** equipment version is offered with black/black fabric seat upholstery and dashboard and door panelling in a black/black combination. The interior contains the Active decorative mouldings on the front and rear doors and other decorative elements, such as chrome door handles, polished vent frames and more.

15" steel wheel with **Sidus** hub covers
Standard on Active

Active Black interior, Active décor

With the **Ambition** equipment version you can choose from the following two alternatives: black/black fabric seat upholstery and dashboard and door panelling in a black/black combination, or black/grey fabric seat upholstery and dashboard and door panelling also in a black/grey combination. The interior is decorated with the Ambition decorative mouldings on the front and rear doors and a number of chrome elements on the steering wheel, vent frames, gear stick and more.

Ambition Black interior, Ambition décor

Ambition Grey interior, Ambition décor

16" **Ilias** alloy wheels
Standard on Ambition

The **Dynamic** interior, with its exclusive sports seats in a special design and small leather package featuring sports steering wheel in perforated leather, will underline the unique character of your car. Available for the Ambition and Style versions as an option.

The **Style** equipment version is available in two interior colour alternatives. The first has black/black fabric seat upholstery and dashboard and door panelling also in a black/black combination. The second option has beige/beige upholstery and dashboard and door panelling in a black/beige combination. The interior is decorated with the Style decorative mouldings on the front and rear doors and a number of chrome elements on the steering wheel, vent frames, gear stick and more. We offer decorative wood décor for the Style as standard. Image shown includes optional alcantara/leather upholstery.

17" **Denom** alloy wheels
Standard on Style

Style Black interior, Style décor

Dynamic Black interior, Style décor

Dynamic Red interior, Style décor

SCOUT 4x4 Models

The **ŠKODA Octavia Scout** confidently presents its off-road character. But its wild appeal applies not only to its robust exterior. The model is available exclusively with a **4x4 drive** and **higher chassis**, so you can go off paved road without trepidation. The **rear bumper** with a silver protective cover lends the car's body a tough appearance, which is further underlined by **plastic covers** on the wheel arches. The front bumper features integrated **fog lamps in a Scout design**. There is a choice of powerful engines: 2.0 TDI 150bhp or 184bhp (diesel).

The Scout version can be upgraded with driving mode selection including the off-road mode with downhill assistant. With this you can drive completely safely even down very steep roads. It maintains consistent speed when driving down precipitous sections, both when driving forward and when reversing.

The **decorative door sill strips** with the Scout inscription are an original feature with aesthetic as well as practical functions.

The **17" Nivalis alloy wheels** come as standard with two colour alternatives

Another attractive option are the **18" Trinity alloy wheels**.

The Scout version also comes with distinctive **interiors**. Optionally, you can choose the brown (see photo) or black interior upholstered with Alcantara/leather/artificial leather. The brown or black interior with fabric upholstery comes as standard. The **Scout logo** on the seats, steering wheel and gear stick is a characteristic design feature.

Trip to the beach, towing a trailer, living at the top of a hill.
Look no further than a Octavia with 4x4.

The 4x4 drive and **automatic 6-speed DSG** (Direct Shift Gearbox) are two state-of-the-art technologies, which in combination guarantee an extraordinary driving experience.

When you feel confident behind the steering wheel and know that you can rely on your car even in extreme conditions, you can truly enjoy the driving experience. Such moments await you with the **ŠKODA Octavia 4x4 version**, whether you go on unpaved or slippery streets or through serpentine mountain roads. The 4x4 drive is a great choice not only for adventurous drivers who crave driving off asphalt, but those who frequently tow a trailer will also appreciate its power. You can select from four engines including: the 1.6 TDI 110bhp, 2.0 TDI 150bhp and 2.0 TDI 184bhp (diesel).

The 4x4 drive is provided by an inter-axle coupling located at the rear axle that automatically engages under extreme conditions.

RS Models

RS Models

The **ŠKODA Octavia RS** uniquely combines a dynamic driving experience with all the characteristics of a practical family vehicle. It can be easily identified by the **RS badge** on the front grille as well as the **Bi-Xenon headlamps with LED daytime running lights and black backfill**. The sports styling of your car can be further emphasised with the **Black package** (external mirror covers, front grille frame and, for the combi version, roof railings in glossy black colour) and also with an exclusive **Challenge package**. The basic RS version is available with a high performance 2.0 TSI 220bhp petrol or 2.0 TDI 184bhp diesel engine. The RS 230 version comes exclusively with a **2.0 TSI 230bhp petrol engine**.

The **decorative door sill strips** with an RS inscription accentuate the character of the model as well as increase its practicality. The Challenge package contains strips in a specific design.

The **18" Gemini alloy wheels** in black design, further increase the appeal of the model, come as part of the Challenge package.

The rear of the RS model is dominated by **chrome exhaust pipe end pieces**, which are very effective and further accentuate the sporty look of the car. A pronounced **taillight**, improving the car's visibility, sits above the **massive diffuser**.

The **interior** can be in combination of leather/artificial leather (optional; see photo) with red or grey double stitching or fabric/leather/artificial leather (as standard) with red or grey stitching. The gear stick and the handbrake handle are covered in leather.

The **3-spoke sports multifunctional steering wheel**, wrapped in perforated leather with grey or red stitching and adorned with an original RS plaque, enables control of the radio, phone and automatic DSG (Direct Shift Gearbox). The **electromechanical power steering** allows you sporty driving as well as comfortable control in city traffic or while parking.

The **instrument panel in the RS design** has a clearly legible white interface. The attractive **Maxi DOT colour display with a LapTimer** comes as part of the Challenge package.

The **noble steel foot pedal covers** are yet another stylish detail of the Octavia RS model.

When driving economically, you can achieve combined consumption of **4.4 l/100 km** with a diesel engine and manual transmission.

Laurin & Klement Models

The **ŠKODA Octavia Laurin & Klement** or **L&K** for short represents the highest equipment version in the Octavia range. It has generous equipment levels as standard providing exceptional levels of comfort that captivate with premium materials and advanced technology. The Laurin & Klement comes exclusively with the high performance 2.0 TDI 150bhp diesel engine and is also offered in Combi estate versions.

The **Bi-Xenon headlamps with LED daytime running lights** excel with brilliant luminous intensity and longevity. The **fog lamps with a Corner Function** are also used as highly efficient turning lights.

The elegant **brown leather interior** is lined with either an imitation wood (see photo) or a Piano Black décor. The steering wheel, gear stick knob and sleeve, as well as the handbrake handle, are also in brown leather.

The **3-spoke multifunctional leather steering wheel** allows you to control the radio and phone.

The decorative **Laurin & Klement plaquette** on the front mudguards forms an important design feature.

The appeal of the vehicle is further increased by the **18" Turbine alloy wheels**, available in anthracite or silver design.

ŠKODA FLEET

At ŠKODA we want to be the most valued Fleet manufacturer in Ireland. That may sound a little ambitious but we're already on our way because Fleet managers love choosing our cars as much as we love making them. We think you will also feel the same.

For ŠKODA, it doesn't matter how big or small your company is, we value your business and can tailor a solution to perfectly meet the needs of your business. ŠKODA is currently the 6th top selling car brand in Ireland and continues to win awards for its excellent model range. Fleet Managers continue to be impressed by the low running costs and high residual value associated with ŠKODA vehicles, while drivers themselves appreciate the exceptional interior and luggage space, safety, comfort and performance of our cars.

You can contact the ŠKODA fleet department by emailing fleet@skoda.ie or contact your local ŠKODA dealer.

High Mileage PCP Options

At ŠKODA, we understand the varying needs of our Fleet customers. That's why we have tailored finance plans to allow you to concentrate on the more important things like running your business.

One such method of business finance is the ŠKODA High Mileage PCP offer. This flexible finance option offers the convenience of a guaranteed future value (GFV) for your new ŠKODA and also offers some additional financial benefits to your business. ŠKODA High Mileage PCP differs from conventional PCP as your payments can be scheduled over a shorter term period to ensure maximum flexibility for you and your business, but that's not all, your mileage allowance can also be increased ensuring your business can grow and prosper at all times.

Like all ŠKODA PCP offers, the High Mileage PCP option allows you to use the equity in the future value of your ŠKODA to reduce your monthly payments and avail of a shorter termed agreement. So, whether you want to drive the latest and safest model, upgrade regularly or simply keep your new ŠKODA, the ŠKODA High Mileage PCP offer makes your money go further.

For more information on this offer, please visit www.skoda.ie/finance, email fleet@skoda.ie or contact your local ŠKODA dealer.

SERVICE PLANS FROM €13.99

When you invest your new ŠKODA Octavia, it is important to protect your investment by maintaining your vehicle to the highest possible standards. Our ŠKODA technicians are highly skilled and continuously trained in the latest vehicle technologies.

To provide an enjoyable and care free ownership experience we have developed ŠKODA Service Plans.

With the ŠKODA Service Plan, you are guaranteed that your ŠKODA Retailer will keep your ŠKODA serviced for up to 3 years or 45,000 kilometres (whichever occurs sooner). Your vehicle will be serviced within the ŠKODA Retailer Network using only ŠKODA Genuine Parts. The ŠKODA Service Plan maintains manufacturer's service history, which can enhance the resale value of your car.

So what does a Service Plan include?

- › **Oil Service.**
- › **Car Check/Standard Service Inspection.**
- › **Renew Screen wash Additive.**
- › **Reset Service Indicators.**
- › **Complete any Software Updates.**
- › **Complete any Service Enhancement Actions.**
- › Renew Pollen Filter.
- › Renew Brake Fluid
- › Renew Air Filter

Actions listed above in bold are completed at every service interval, actions not listed in bold are completed at specific service intervals. Please enquire for any additional information.

Benefits of the ŠKODA Service Plan.

- › Reduce your costs with discounts of up to 20%.
- › Inflation proof – avoid inflation over the life of the plan.
- › The plan can move with the vehicle should you decide to sell it.
- › A full ŠKODA service history may enhance your vehicle's value.
- › You'll experience our expertise, specialist tools and technology and excellent customer service.
- › At €13.99, large service bills can be avoided.

Original Parts.

We spend as much time and attention-to-detail designing and producing our Genuine ŠKODA Parts as we do with our vehicles. It's because we know that not only do our parts need to be produced to the highest possible standards in terms of quality, but they also need to fit our entire range of vehicles quickly and safely. Every original part is subjected to the same standard as each vehicle that leaves the factory. All parts and labour are covered by a 2 year unlimited mileage warranty from the date upon which they are fitted to your ŠKODA.

Personal Service.

Our committed service staff will be on hand to assist you with your service needs and advise you on the work that your ŠKODA may require.

Transmission	Manual 6-speed (Automatic 7-speed DSG)	Manual 6-speed (Automatic 7-speed DSG)	Manual 6-speed (automatic 6-speed DSG)	Manual 6-speed (automatic 6-speed DSG)	Manual 6-speed (automatic 6-speed DSG)	

Weight						
Kerb weight – in standard version with a 75kg driver (kg)	1,225 (1,250)	1,230 (1,255)	1,420 (1,440)	1,445 (1,465)	1,453 (1,473)	
Payload – incl. a driver and extra equipment (kg)	625	625	542	542	542	
Total weight (kg)	1,775 (1,800)	1,780 (1,805)	1,887 (1,907)	1,912 (1,932)	1,920 (1,940)	
Trailer load without brakes (max. kg)	610 (620)	610 (620)	710 (720)	720 (730)	725 (735)	
Trailer load with brakes – 12% (max. kg)	1,300	1,300	1,600	1,600	1,600	

Body	5-seater, 5-door, 2-compartment
Drag coefficient C _w	0.277–0.312 according to engine version

Chassis	
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Compound link crank-axle/1.8 TSI; G-TEC; 4x4: Multi-link axle suspension with one longitudinal and three transverse links and torsion stabiliser
Braking system	Hydraulic dual-diagonal circuit braking system Dual Rate vacuum assisted
– front brakes	Disc brakes with inner cooling and with single-piston floating calliper
– rear brakes	Disc brakes
Steering	Direct rack-and-pinion steering with electro-mechanic power steering
Wheels	6.0J x 15"; 6.5J x 16"
Tyres	195/65 R15; 205/55 R16

Tank capacity (l)	50; 4x4: 55; G-TEC: 50 + 15 kg
--------------------------	--------------------------------

The listed values (except for values marked *) apply to the standard model without extra equipment.
*Applies to vehicles with 205/55 R16 tyres with low rolling resistance.
** Using low-octane fuel may affect engine performance.
*** Aeropackage (16" tyres with low rolling resistance, 15mm lower chassis, fog lamps, active cooler jalousie and spoiler on the 5th door)
()Applies to versions with automatic transmission.

Exterior dimensions	
Length (mm)	4,659
Width (mm)	1,814
Height (mm)	1,461
Wheel base (mm) – according to engine version	2,686; 2,680
Track front/rear (mm) – according to engine version	1,549; 1,543/1,520; 1,514; 1,512

Clearance (mm)	140
----------------	-----

Interior dimensions	
Lateral room front/rear (mm)	1,454/1,449
Effective head room front/rear (mm)	983/980
Luggage storage space (max. l)	
– without spare tyre, with rear seat backrests upright/down	590/1,580; G-TEC: 460/1,450
– with spare tyre the values are lower by 22l
